

Dionis Gonzalez

About

I am a software engineer, proficient in Javascript, Web APIs and the PERN (PostgreSQL, Express, React, Node) stack.

I have 10+ years of experience in sales, customer service and first-line management, which allowed me to develop my adaptability to changing trends and innovative solutions, a team-oriented structure, and an entrepreneurial mindset.

I also have a strong background in customer engagement and student enrollment advising, further strengthening effective communication when discussing strategies and goal management.

Projects

Flickshare

Description: A movie suggestion app for anyone that bases results on the user's own interests, separated by lists.

Tools: PERN (PostgreSQL, Express.js, React.js, Node.js) stack.

LangCards

Description: A simple Spanish language trainer app for anyone that uses the spaced repetition revision technique for a more effective learning experience.

Tools: PERN (PostgreSQL, Express.js, React.js, Node.js) stack.
